Student: _____	Date: _____
Preceptor: _____	
Site: _____	
Semester #/Category _____	# of Cases _____
Case: _____	

Directions: Please indicate with an X the category that best describes the student's performance today.

- Novice=N** Needs constant guidance, relies on "rules", disorganized, can't focus-semester 2&3
- Advanced Beginner=AB** Needs help setting priorities, grasps basic flow of anesthetic, able to be left alone for short periods of time- semester 4
- Competent=C** Organized, efficient, plans for problems, able to be left alone-semester 5&6
- Proficient=P** Sees situation as a whole, requires minimal direction-semester 7&8
- Experienced=E** Functions at the level of an experienced provide

Preoperative Evaluation & Preparation	N	AB	C	P	E	N/A
Performs an adequate preanesthetic patient interview & physical assessment	—	—	—	—	—	—
Provides patients with explanations appropriate to age, educational & cultural levels	—	—	—	—	—	—
Interprets preoperative diagnostic studies	—	—	—	—	—	—
Selects or administers appropriate preoperative medication & treatments	—	—	—	—	—	—
Selects and prepares indicated medications	—	—	—	—	—	—
Correctly assembles & tests necessary equipment & monitors	—	—	—	—	—	—
Strengths: _____ _____	Areas for Improvement: _____ _____					
Suggested methods for improvement: _____ _____						

Anesthetic Management	N	AB	C	P	E	N/A
Formulates a patient & procedure –specific anesthetic care plan	—	—	—	—	—	—
Provides correct rationale for management choices	—	—	—	—	—	—
Manages induction of anesthesia	—	—	—	—	—	—
Titrate anesthetic according to patient's response	—	—	—	—	—	—
Safely positions patient to maintain optimal function	—	—	—	—	—	—
Interprets and evaluates monitoring data correctly	—	—	—	—	—	—
Manages fluid and blood replacement	—	—	—	—	—	—
Identifies and manages anticipated & unanticipated perioperative events	—	—	—	—	—	—
Plans for and manages a controlled emergence	—	—	—	—	—	—
Develops and institutes a plan for postoperative pain management	—	—	—	—	—	—
Gives complete, concise report to PACU personnel	—	—	—	—	—	—
Strengths: _____ _____	Areas for Improvement: _____ _____					
Suggested methods for improvement: _____ _____						

Technical Skills	N	AB	C	P	E	N/A
Compliance with universal precautions	—	—	—	—	—	—
Airway management w/ bag and mask	—	—	—	—	—	—
Intubation technique	—	—	—	—	—	—
Intraoperative ventilatory management	—	—	—	—	—	—
Insertion of IV catheters	—	—	—	—	—	—
Insertion of CVP/PA catheters	—	—	—	—	—	—
Applies all needed monitors	—	—	—	—	—	—
Placement of regional neural blockade	—	—	—	—	—	—
Documents care accurately; completely, legibly	—	—	—	—	—	—
Functions with minimal direction	—	—	—	—	—	—
Work habits are organized and orderly	—	—	—	—	—	—
Performs effectively in stressful situations	—	—	—	—	—	—
Strengths: _____ _____	Areas for Improvement: _____ _____					
Suggested methods for improvement: _____ _____ _____						

Professional Characteristics	Satisfactory	Unsatisfactory
Collaborates with other members of anesthesia & surgical team	—	—
Exhibits a responsive attitude to teaching & learning	—	—
Recognizes limitations of knowledge & ability	—	—
Accepts and adjusts to constructive criticism	—	—
Written & verbal communication is effective and appropriate to level	—	—
Demonstrates flexibility in new or changing situations as appropriate to level	—	—
Performs effectively in stressful situations as appropriate to level	—	—
Strengths: _____	Areas for Improvement: _____	
Suggested methods for improvement: _____ _____		

Preceptor's Written Comments
_____ _____ _____

Student's Self-Evaluation
_____ _____ _____

Preceptor: I discussed this evaluation with the student. _____
Student: The preceptor discussed this evaluation with me _____
