TITLE: *Emergency Procedures for Nursing Students*

PURPOSE: The purpose of this policy is to provide all nursing students with guidance in the preparation for weather related emergency procedures for LSUHSC-NO, School of Nursing

POLICY: LSUHSC-NO nursing faculty are committed to ensuring the successful continuation of your academic education after a weather related emergency. Nursing faculty will work diligently to continue your nursing education as soon as possible following a weather related emergency. The successful management and recovery for any emergency is dependent upon adequate preparation. This requires that every nursing student is familiar with LSUHSC-NO emergency procedures and follow the guidance provided by nursing faculty prior to and after an emergency situation.

1. Chancellor, Dr. Larry Hollier has provided all faculty, staff and students with a policy on Weather Related Emergency Procedures for LSUHSC-NO, CM-51. This policy can be located at <http://www.lsuhscc.edu/no/administration/cm/cm-51.htm>. This policy provides directives for activities in preparation for, during and after a weather related emergency. In addition, this policy provides categories for an emergency response due to flooding:
 - Yellow – Flood Caution
 - Orange – Flooding Possible
 - Red – Flooding Probable
2. The Chancellor of LSUHSC –NO is the final authority to activate the Disaster Plan.
3. Students can access the “Student Directory” site to update their latest contact information. The site is:
<http://nursing.lsuhscc.edu/StudentInformation/StudentDirectory.html>

4. Weather Alert Text Messaging Alert System Notification: In cases where there is a threat of severe weather, the SON will send text messages that will supplement and reinforce messages coming from the Office of the Chancellor.

PROCEDURE: A. Communication

1. In the preparation, during and after an emergency situation, communication is a critical and vital element for the successful management and recovery from a crisis situation. Therefore, all nursing students must utilize multiple sources of media to receive communication regarding the state of emergency, to include television, statewide and local radio stations, and the LSUHSC-NO Emergency Web site. Students are encouraged to subscribe to the text messaging system - TMNS. Mass communication messages to all nursing students will be coordinated through either e-mail or the LSUHSC-NO Emergency Web site.
2. Nursing students should respond to all emergency messages designated for all LSUHSC Center students and those specifically posted on the LSUHSC-NO Emergency Web site for nursing students. Emergency messages posted specifically for students in other schools such as medicine, allied health, public health, graduate studies, and dentistry may not apply to nursing students.
3. Blackboard communication modules have been established for all students and are as follows:
 - Graduate
 - MN and DNS
 - NAP
 - Undergraduate
 - CARE
 - RN to BSN and MN
 - Traditional BSN
 - Special

4. In addition, an Emergency Information Hot Line can be contacted at 866-957-8472.

B. Declaration of an Emergency

1. The Chancellor will issue an executive decision to activate the Weather Related Emergency Plan and Procedures. An emergency is not declared until the Chancellor provides the executive decision.
2. During the emergency, LSUHSC-NO will not serve as an evacuation site for faculty, staff or students.
3. Nursing students will be alerted to the declaration of an emergency through public announcements on the LSUHSC-NO Emergency Web site, TMNS, television, and radio. Depending on the timing of the emergency declaration and current situation, nursing faculty will attempt to notify students regarding the state of emergency. However, this may not be possible, therefore, nursing students should primarily utilize the LSUHSC-NO Emergency Web site, television or radio for current information and updates.

C. Preparation for a Weather Related Emergency

1. In addition to the personal preparation for your safety and security during a weather emergency situation, nursing students are encouraged to prepare for the continuation of the nursing education in the immediate aftermath of a weather related emergency. Nursing students are encouraged to prepare in advance to evacuate with the following items:

**D. After the Declaration of a Weather Related Emergency
and the Immediate Aftermath**

1. All LSUHSC-NO nursing students, faculty and staff are required to update their personal contact information on the LSUHSC-NO registry. This registry will become available online via the LSUHSC Emergency Website once a state of emergency has been declared by Chancellor Hollier.
2. After the immediate weather related emergency has ceased, nursing students must access an update on LSUHSC-NO events through the LSUHSC-NO Emergency Web Site, television, or radio.
