

## LSUHNO School of Nursing Background Screening Information

1. The Background Screening is a one-time event unless otherwise stipulated by the School of Nursing or the healthcare facility. The background screening must be ordered through Certiphi.
2. Certiphi will be sending you an email. Look for an email from [studentedition@certiphi.com](mailto:studentedition@certiphi.com). The email will have further instructions on completing Certiphi's application and payment.
3. On average, it takes 3-5 business days to complete a background check case report. The student and LSUHNO School of Nursing will receive a copy of the report once complete.
